

**Glasses for solar eclipse viewing**

Brand: HelioSecure | Model: HSE-01 | EN ISO 12312-2:2015 | PPE Cat. II | Regulation (EU) 2016/425 | CE Keep these instructions. The product must be used only as described in this leaflet.

**SAFETY WARNING — RISK OF SERIOUS EYE DAMAGE**

Looking directly at the Sun without adequate eye protection can cause serious and irreversible eye injuries, including permanent retinal damage and BLINDNESS. This risk exists even during a partial solar eclipse and even if exposure is brief. Use these glasses **ONLY** during an eclipse and **ONLY** by following these instructions.

**1. PURPOSE OF THE PRODUCT**

For exclusive use for direct observation of the Sun during a solar eclipse. They are not normal sunglasses and must not be used for driving or for everyday protection from sunlight.

**2. USERS**

Intended for the general public. Minors must always use it under the direct and constant supervision of a responsible adult.

**3. PROHIBITIONS AND ESSENTIAL WARNINGS**

- PROHIBITED to use with telescopes, binoculars, cameras or other optical systems (they concentrate radiation and can cause severe injuries).
- Do not use for driving or as normal sunglasses.
- Reduced field of view: use only while standing still and in a safe environment. Do not use while walking in areas with traffic, cycling, running, operating machinery, or in activities that require full peripheral vision.
- Do not modify the product (do not cut, bend, punch holes, or tamper with the filter or frame).
- If you notice pain, discomfort, intense glare, or visual disturbances: stop using immediately and consult a healthcare professional if necessary.

**4. DO NOT USE IF DAMAGED**

Do not use if the filter or frame shows: holes/punctures, cracks/tears, lighter areas/stains/bright spots, deep scratches, pronounced creases, or partial/total detachment of the filter.

**5. INSPECTION BEFORE EACH USE (WITHOUT LOOKING AT THE SUN)**

Indoors, look at a bright lamp through the filter: it should appear uniformly dark and no bright points or lightened areas should be visible. If you detect defects: DO NOT use the glasses; discard them and use another pair in good condition.

**6. INSTRUCTIONS FOR USE**

- . Stand with your back to the Sun and put them on properly adjusted (no light entering from the sides).
- . Slowly turn toward the Sun and observe, taking frequent breaks.
- . To stop observing: first look away from the Sun and only then remove the glasses.
- . For minors: the adult must fit them correctly and prevent the minor from removing them while looking at the Sun.
- . Do not use these glasses together with binoculars, telescopes, or cameras.

**7. STORAGE / CLEANING / SERVICE LIFE / TRANSPORT**

Transport packaging: cardboard envelope/pack. Transport and store the product **inside this packaging**, in a **cool and dry place**, protected from **crushing, bending and moisture**. Store in a dry place, away from humidity, heat, and chemicals/solvents. Do not bend or wet the filter. Clean only with a soft, dry cloth. Recommended service life: 3 years from the date of manufacture (DOM), if stored correctly and undamaged.

**8. MANUFACTURER, DOCUMENTATION AND NORMATIVE REFERENCE**

Manufacturer / EU Responsible Person: Helio Secure S.L., C/ Lepant 270, Bajos, 08013 Barcelona (Spain).  
Designed to comply with EN ISO 12312-2:2015. PPE Cat. II in accordance with Regulation (EU) 2016/425. **EU Declaration of Conformity (EU DoC) available for download at: <https://heliosecure.es/EU>**

**8.1 SYMBOLS AND MARKINGS:**

Read/consult these instructions before use. They contain essential warnings and limitations to avoid eye injuries.

 Compliance with Regulation (EU) 2016/425 (PPE).  Recyclable.
